

Manufacturing

Key Stage 4 (years 9 - 11)

75 minute facilitated session

In this workshop, students will explore aspects of manufacturing, including: real manufacturing processes from our partnership with Brose, quality control, and operation planning. The workshop begins with a short tour, which focuses on car seats, enabling students to learn about materials, processes, and job roles. During the workshop, students will work in groups to complete hands-on, problem solving activities.
