

Transport Timeline

Key Stage 1 & 2

Self-led activity

1-2 hour (approx.)

This session is designed to help learners understand the development of road transport since the start of the 20th century. Working in small groups, you'll use the activity sheets, clipboards and pencils provided to draw and record vehicles from different decades around the museum. The activities will support pupils' understanding of the evolution of transport design over time, strengthening their grasp of the concepts of chronology and technological innovation.

Teacher Notes

We provide the activity sheets, clipboards, and pencils, so that's one less thing to plan into your day.
